B&L Reference Laboratory and Parasight System Partner to Give IAHA Members **One Coordinated Path** for **Every Diagnostic Need**

Reference-lab depth meets in-clinic speed: IAHA's two exclusive diagnostic partners join forces so independent hospitals can send out specialty testing or run routine panels in-house, through one coordinated relationship.

Irvine, Calif., Oct. 28, 2026 – B&L Reference Laboratory, the Exclusive Lab Partner of the Independent Animal Hospital Association (IAHA), today announced a partnership with Parasight System Inc, IAHA's Exclusive In-Clinic Diagnostic Partner. The partnership gives IAHA's more than 850 member practices across 44 states a complete diagnostic portfolio, from specialty send-out testing to routine in-clinic panels.

B&L's full-service reference menu now pairs with Parasight's Complete Lab System, which returns most in-clinic results in under 10 minutes. Veterinarians choose case by case whether to send a test to B&L or run it in-house, based on urgency, volume and staffing.

SEND-OUT

B&L Reference Laboratory

Specialty testing, without the extra steps.

Microbiology & Culture · aerobic, anaerobic, urine culture & MIC, fungal ID

Histopathology & Cytology · read by board-certified specialists

Advanced Endocrinology · FT4 by dialysis, aldosterone, AMH, TLI, B12 & folate

Coagulation · PT, aPTT, fibrinogen, AT III, vWF

Therapeutic Drug Monitoring · phenobarbital, bromide, cyclosporine, zonisamide

Infectious Disease · Coccidioides, Cryptococcus, Brucella, FIV by IFA

Wellness & Custom Panels · built around each practice's caseload

IN-CLINIC

Parasight Complete Lab System

Answers in minutes, during the visit.

SightAI™ All-in-One · Parasite detection

InSight® V5R · Hematology

InSight® V-CHEM · Chemistry

InSight V-IA® Plus · Immunoassay

InSight® Urinalysis · Urinalysis

InSight® Equine-IA · Equine immunoassay

Both platforms integrate with leading practice management systems, so send-out and in-clinic results land in the same record. Members get B&L's 24-hour specialist consults, logistics support and pricing flexibility, plus Parasight's US-based support.

"Independent hospitals deserve a reference lab that works the way they do. With Parasight handling routine panels in minutes, B&L can focus on the specialty cases where a board-certified read or a 24-hour consult changes the outcome, and members get it all through one coordinated relationship."

— Desiree Hedge, CEO, B&L Reference Laboratory

"Independent practitioners shouldn't have to choose between fast answers and a deep test menu. Partnering with B&L lets IAHA members handle the routine work in minutes, in-house, and send out everything else without adding steps for their team."

— Eric Hauck, CEO, Parasight System

AVAILABILITY

The combined offering is available now to IAHA member hospitals. Current B&L clients can ask their B&L account representative about adding Parasight in-clinic diagnostics. Practices interested in either service can contact B&L Reference Laboratory at 949-850-8515 or bandllabs.com, or Parasight at 833-233-7278 or parasightsystem.com.

ABOUT B&L REFERENCE LABORATORY

B&L Advantage: One Lab. One Network. Limitless Support.
